## Request form for Drosophila embryo injection services

### Order Instructions

Please fill out the form clearly and send your sample with this order form. We need at least 35ug DNA prepared from Qiagen Midi or Maxi column. The insertion size indicates the DNA fragments between two p-elements. Please notice us if DNA is possibly toxic to the embryos in comment section. Service A is for injection-only services and service B is for both injection and screening the transformants. We inject w<sup>1118</sup>, yw and phiC31 lines (please check availability of our collection from phiC31 section).

### Sample Information

Sample name	Vector	Insertion size	DNA purified method	Buffer	Heat shock promoter (Y/N)	Service type (A/B)	Injected flies
